HPK Adhesive Panel Labels

APPLICATIONS

Impact Panel Labels are pressure sensitive adhesive backed labels used to permanently identify control panel components and racks. Impact Panel Labels will adhere to most smooth surfaces including bare and painted metal.

USE

- Place HPK Panel Labels in a thermal transfer printer
- Use AWMS software, then print product
- No need to permatize
- Remove from the carrier sheet
- Press firmly onto clean surface

PRODUCT

- Manufactured from polypropylene film with white topcoat and permanent pressure sensitive acrylic adhesive
- Operates at temperatures from -20°F to 176°F (-29°C to 80°C)
- No permatizing required
- Resistant to common fluids, lubricants and solvents

FORMAT

The unique presentation - markers mounted on continuous carrier - enables the user to produce high quality markers in their own production shop or jobsite using the affordable Advanced Wire Marking System software and printers.
